To Whom It May Concern,

I, Frank Davis, have worked very closely with Mr. Paul Da Silva and Celcius Refrigeration over the past few years and have developed a very good relationship with the Company.

Mr. Da Silva is always looking at new innovative ways to improve on the energy-saving aspects of his installations and reduce running costs as well as remain on the cutting edge of refrigeration, while simultaneously ensuring that he provides the appropriate solution for each client.

On each interaction I have found every member of Celcius Refrigeration, to be courteous, considerate and professional with an abundance of knowledge regarding their specific field.

I am certain that Celcius will only continue to grow and I am eager to continue our beneficial business relationship for many years to come..

Best Regards,

Frank Davis,
National Sales Engineer
