Ref: Celcius Refrigeration

To whom it may concern,

LETTER OF RECOMMENDATION

It is with great satisfaction that I highly recommend the services and products of Celcius Refrigeration. We recently revamped and upgraded our store and used Celcius Refrigeration. The services we rendered included new installations of refrigeration cabinets, compressors, piping, electrical work and relocating of existing cabinets and compressors.

All the work was neatly done in a professional way with the necessary expertise. Through out the project, there was no lack of interest or urgency in order to finish and finalize the project successfully. The deadline was met well in advance and weeks before the launch of our store. Celcius Refrigeration really went the extra mile for our store.

Further more, the back support to repair minor breakdowns and issues was excellent and always professional.

Thank you Celcius Refrigeration for a job well done! We will certainly make use of your services in future.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Paul Laage".
